

ANSC Inclement Weather Procedures

During times of inclement weather, ANSC will generally follow the guidance of the North Allegheny School District.

- Safe travel conditions are a priority for everyone. If you truly think that the weather is too bad to safely get your children to practice – do not bring them. Please stay home and remain safe.
- If school is cancelled for the day, or during the day, and weather continues to deteriorate or remain bad, ANSC may not have practice in the afternoon, depending on North Allegheny decisions to keep buildings open or allow swimmers access to the NASH pool.
- The ANSC head coach will coordinate with North Allegheny administrators and the Athletic Director and advise us of any decisions regarding practices.
- Please watch your e-mail for updates on practices when adverse weather arrives since this is how we will then notify the club. This notice usually will not happen before 12:00 noon. E-mail is our most timely and efficient method to get these notices to all club membership.
- If you need to change your e-mail address for these notices and club communications, and invoices, please log on to Thriva via the link on the front page of the web site.
- Please e-mail anscnews@yahoo.com with questions.
